

INTERDISCIPLINARY PhD PROGRAM (2018-2023)

*Innovative language research in interdisciplinary perspectives:
psychology, sociology and technology*

The Faculty of English invites applications for an interdisciplinary PhD program!

THE INTERDISCIPLINARY PHD PROGRAM:

- prepares PhD students to conduct **scientific research at the highest level** (selected courses: *research methodology, data analysis, ethics in research with human participants, information technology in research*)
- prepares PhD students to **apply effectively for the funding of scientific research**
- provides support in developing **effective scientific presentation skills** (selected courses: *scientific presentation skills, analysing research results*)
- provides support in **publishing in top scientific journals** (selected courses: *analysing research results, editing scientific articles*)
- provides support in developing **soft skills** (selected courses: *how to negotiate, career guidance*)
- promotes the participation of **international assistant supervisors**

PHD STUDENTS WILL:

- complete **three-month international research internships** in international research institutions
- conduct **short-term research stays** at international research institutions
- participate in the **International Winter School**, which will give them the opportunity to work on advanced methodology, critical thinking skills, and data analysis with reference to their on-going doctoral projects
